

## Acrovyn® Sheet – Textures + Microtextures

Acrovyn Textures and Microtextures are two collections that offer an extra touch of design to some of our Acrovyn finishes, including solid colors, woodgrains, and brushed metals. Collections range from subtle to bold, helping add interest and uniqueness to a space. Also, our Microtextures help bring a level of authenticity to woodgrain patterns or an element of interest on solid colors.

---

### Advantages

- Available for wall covering and panels
- Added design options to help elevate a space
- Maintains same durability that has come to be expected from Acrovyn
- Microtextures add a subtle yet impactful design element, whether adding more realism to woodgrains or a unique element to a solid color
