

FWS Series

Model FWS

This serrated single gasket wall cover system is ideal for interior applications where minimal visual impact is preferred and where hygiene is critical. The ribbed center section of the gasket allows movement up to 200%. This series is also designed to match select ceiling cover systems. Gasket profiles vary based on joint size to offer flexibility in installation and field construction.

Advantages

- Single gasket allows for minimal visual impact
- Hygienic
- Serrated profile
- Allows up to 200% movement
- Corresponding floor and ceiling covers for seamless sight line
