

Privacy Curtains + Track *free mock-up program*

When you join our mock-up program, we'll send you an **On the Right Track**® system with one **CSelect™ Fabric** curtain to try at your facility free of charge.

On the Right Track uses hookless rings that are integrated into the curtain, making installation and curtain replacement quick and easy*. This helps to reduce HAIs, improve staff and patient safety, and reduce labor and patient space downtime. Our exclusive **CSelect Fabric** patterns are inspired by earth's natural elements, contributing to a calm and peaceful atmosphere while coordinating beautifully with interiors.

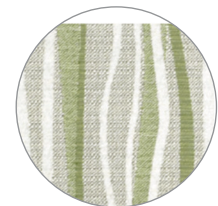

We're confident that your trial curtain and track system will show you, through firsthand experience, the unrivaled benefits that have transformed interiors and held up against the toughest environments for more than a decade.

Ready to try? Please follow the link below and complete the form, or contact your local sales representative. Your rep will ask you for:

- Your desired track length for one cubicle of **On the Right Track**, up to 9 feet
- Your selection of our **CSelect Fabric** choice
- Ceiling height

**Installation not included*
