

HUSH Curtain®

HUSH Curtain® provides privacy by incorporating proprietary acoustical panels that help absorb and block sound. This patented design softens and muffles noise by slowing the reflective velocity within a space. With multiple options, these curtains meet both functional and aesthetic requirements.

Advantages

- Available in fabric or Clean-In-Place™ vinyl to meet specific design needs
- Designed with pockets to hold acoustical panels that provide noise absorption
- Tests reflect 70% improvement in reverberation time
- Can improve HCAHPS scores by lowering noise levels & increasing patient privacy
- Noise reduction can improve patient healing & staff effectiveness
- Easily coordinate with other CS Curtain + Track product offerings
- Clean-In-Place vinyl reduces laundering costs
- Zip Top mesh option speeds up removal & replacement of fabric panels
- Can utilize existing track

Applications

- PACU
- NICU
- Pre-/Post-op
- Emergency department
- Patient rooms

Building Segments

- Health & Wellness
- Healthcare
- Senior living
