

## Acrovyn® Strata

Acrovyn® Strata can be whatever you want it to be—a woodgrain, a stone, or an abstract. This amorphic pattern appears organic but has a modern feel, and it blends well in any environment. Offering neutrals that imply wood and stone as well as a range of fun colors, these designs can be cross coordinated with themselves, Acrovyn by Design® patterns, or solid Acrovyn colors. To enhance the pattern's striation and add visual interest, opt for the microtexture.

### Advantages

- Offers the look of wood or stone without sacrificing durability and cleanability
- Coordinates with the entire line of Acrovyn finishes
- Available as wallcovering, panels, and dimensional moldings
- Radius, custom forming, and cut-to-size available
- Collection includes neutral as well as playful color options to coordinate with any design scheme
