APF Series

Model APF

This recessed, all-metal cover is designed for interior applications that see significant traffic, such as malls and airports. It has a unique interlocking design that allows for horizontal movement and some vertical deflection and can withstand heavy rolling loads. Different frame heights are available.

Advantages

- Maintains a virtually flush finish
- Interlocking design for durability
- Different frame heights available
- Highly resistant to rolling loads, distortion, and wear
- Used in areas of heavy duty loading such as forklifts and trucks with pneumatic tires
- Small gasket in interlocking assembly eliminates noise and prevents infiltration of liquids
