LAF-2G Series

Model LAF-2G

This metal flush mounted wall and ceiling cover system is designed for large interior joints where a minimal sight line is desired. The unique panel attachment design allows for thermal expansion and disengages during a seismic event, preventing damage to surrounding walls. This cover system is factory primed and can be field painted to match almost any surrounding wall or ceiling finish.

Advantages

- Flush mounted
- Accommodates thermal and seismic movement
- Lightweight aluminum panel
- Heavy duty magnet holds cover plate in place
- Shock cord keeps cover from falling during seismic event
- No exposed fasteners
- Can be field painted to match surrounding wall or ceiling finish
