

## Perform Sunshades

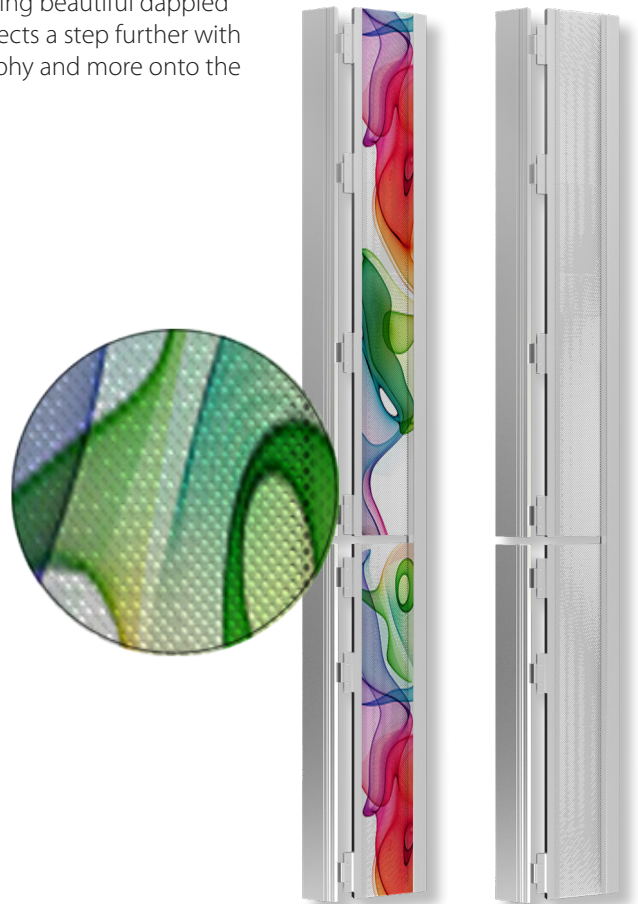

Effective sun control isn't all-or-nothing. With CS Perform Sunshades' perforated aluminum sheet design, you get superb daylight management while still allowing beautiful dappled light to filter in, creating stunning visual effects. Take those visual effects a step further with Facades by Design™ where CS can custom print graphics, photography and more onto the perforated sheet.

### Advantages

- Perforated aluminum sheet blade design
- Horizontal or vertical orientation
- Provides occupants visual and thermal comfort
- Minimizes direct solar heat gain to reduce cooling costs and the heat island effect
- Helps reduce glare
- Functions as an architectural feature for the building
- Versatile and customizable design options
- Fully engineered system is assembled for easy installation
- No unsightly welding
- Optional LED Lux lighting
- Optional Facades by Design graphics, photography, branding, signage and more can be printed on the perforated sheet

### Applications

- Any application where either solar (daylighting) control is required, custom architectural accents are desired, or a functioning vision barrier is needed.

# Perform Sunshades
