

GridLine[®] +

Architectural Accents

Construction Specialties[®]

Custom options to suit any need.

The aesthetic and structural qualities of stainless steel have prompted a surge in popularity for its use in building construction, both inside and out. Carrying the design consistency of stainless grid material from exterior landscape components or facade accents to inside the building, not only for entrance grids, but for use on walls, ceilings, or stairs, has become an effective cohesive design strategy. Construction Specialties is your industry partner with a proven track record for helping design visions become realities. We provide finished, engineered products that you can specify with confidence. For design inspiration, view the customized applications highlighted in this booklet and visit our website: csinc.bz/gridline.

WIRE SIZES & SPACING

Custom spacing
Multiple wire size options

ALLOYS

Type 304 stainless steel
Type 316 stainless steel

SLIP-RESISTANT TREATMENTS

SlipNot™
Beadblast
Sandblast

RAIL FINISHES

Powder coat
Brushed satin #4

INSERT MATERIALS

Heavy-duty carpet
Recycled rubber
SlipNOT™
Custom material, e.g., glass

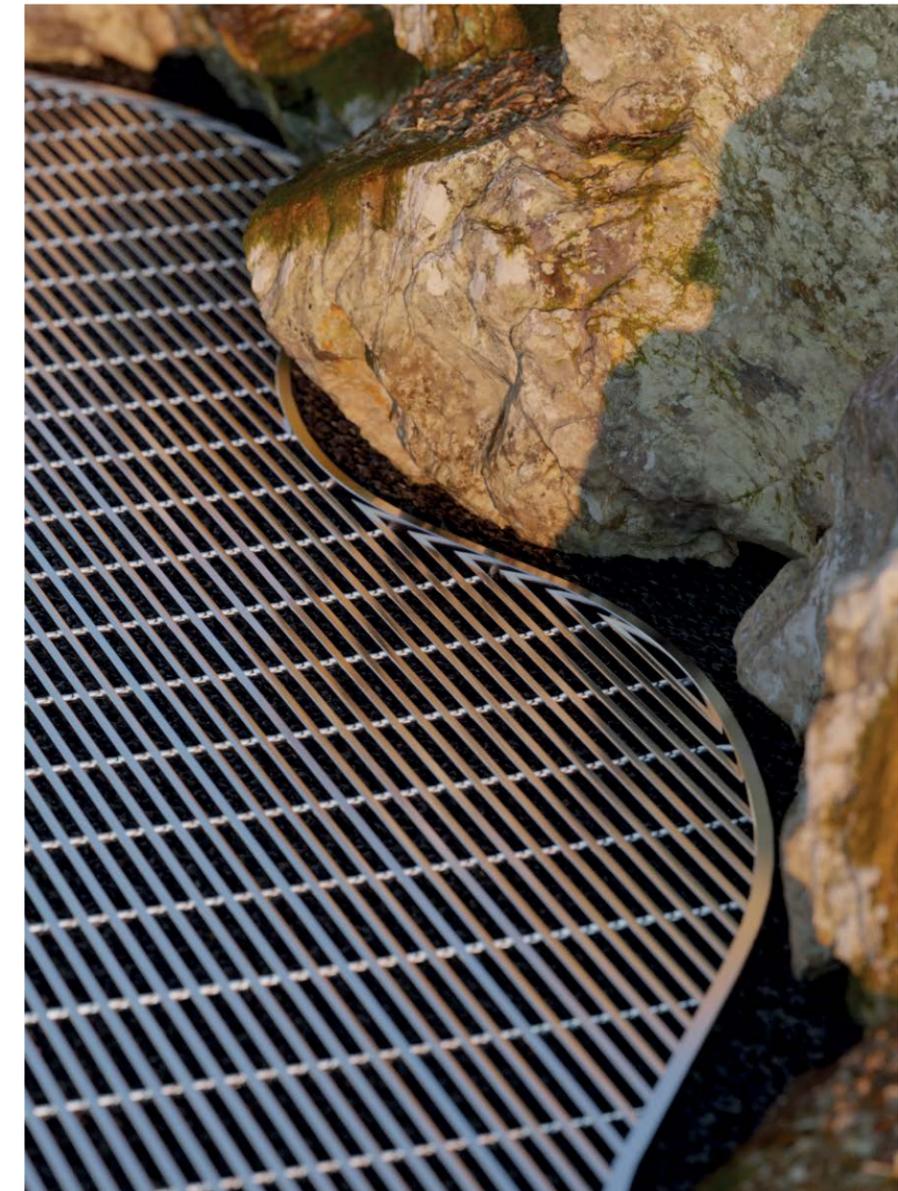

WIRE ORIENTATIONS

Linear rails
Angled rails
Concentric rails

MOUNTING OPTIONS

Surface lockdowns
Hidden lockdowns

Air Diffusers

Air diffuser grille

Tree Grates

Façade Accents

Façade accent panels

Interior + Stair Accents

Stair railing

Column grilles

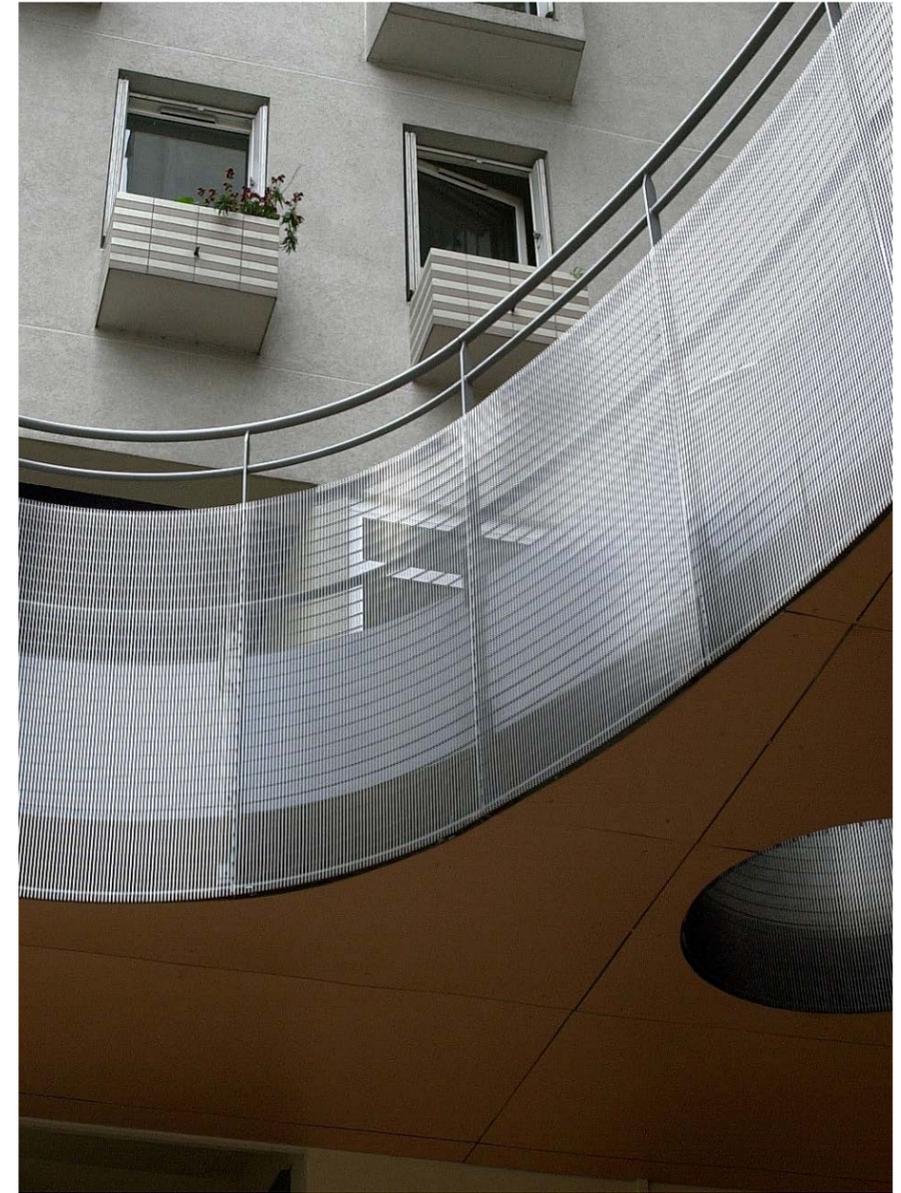

Stair riser covers

Privacy Screens + Fencing

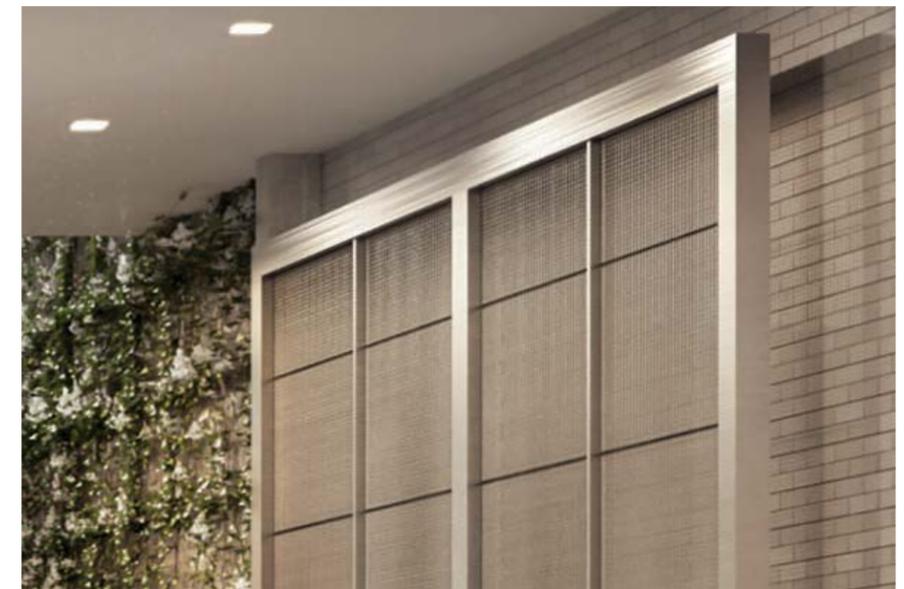

Privacy Screens

Fencing

Shading + Gating

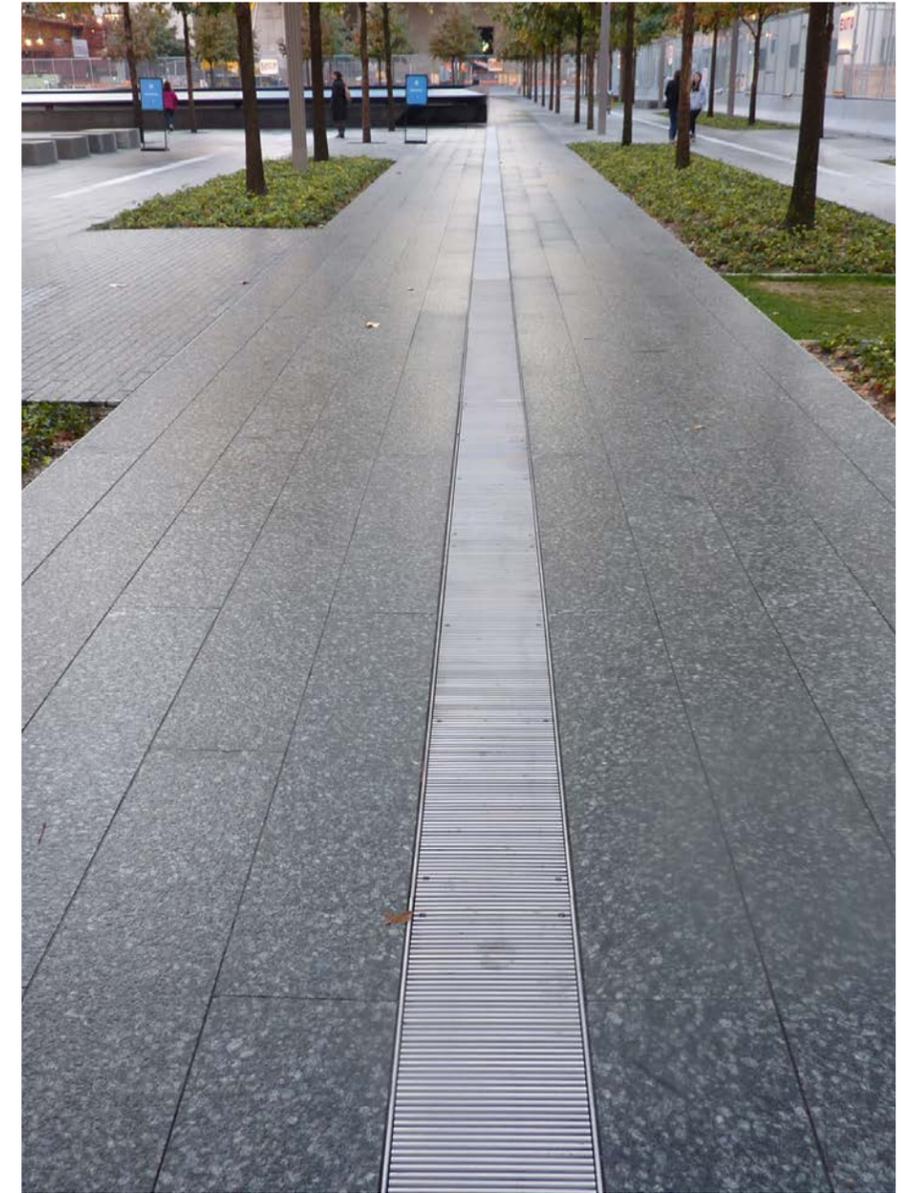

Façade accent panels
Sunshade panels infill
Gate enclosure

Trench + Fountain Grating

Fountain grille

Drain cover

Lighting Screens

LED light masts

CS creates products that solve complex building challenges around the world:

Acrovyn® Wall Protection + Doors | Acrovyn® Wall Covering + Panels
Architectural Louvers | Architectural Grilles + Vision Barriers | Cubicle Curtains + Tracks | Entrance Mats + Grids
Expansion Joint Covers | Explosion + Pressure Relief Vents | Fire + Smoke Vents | Sun Controls
