

**Project:** Bristol Bay Native Corporation  
Anchorage, AK

**Architect:** Koonce, Pfeffer & Bettis Inc.(kpb)  
Anchorage, AK

**Products:** C/S 200-4 Sun Controls, 100-3 Trellis

Koonce, Pfeffer & Bettis Architects (kpb) specified dramatic C/S Cantilevered Sunshades along the roofline of this office complex in Anchorage, AK. The sunshade wraps around the Western and Southern elevations and features 6" wide, long span airfoil blades. They attach to the building's curtainwall with steel tabs and its deep projection assures that the windows beneath are shaded throughout the afternoon.

### At a Glance

- C/S Cantilevered Sunshade Trellis makes a dramatic statement along the roof line
- Airfoil blades are 6" wide longspan blades
- Sunshades wrap around the Western and Southern elevations
- Cradle to Cradle Certified™ Silver\*

\*Clear anodized and C/S Powder Coat Finishes
