

HUSH Curtain® + Clean-In-Place™

The patented acoustical design of our new HUSH Curtain® privacy panel reduces ambient noise by absorbing and blocking sound, providing a soothing and quiet environment for optimal healing.

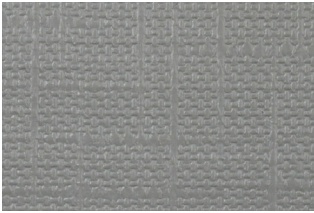

Our Clean-In-Place™ cubicle curtain option doesn't require laundering, making it ideal for areas prone to frequent cleaning needs. These privacy panels are fabricated with a vinyl coated finish, wipeable linen, and an antimicrobial fabric protection that lasts the lifetime of the curtain. HUSH Curtain + Clean-In-Place privacy panel eliminates the need to take down and reinstall curtains or spend money laundering on a reoccurring basis.

All Clean-In-Place curtains include our Zip Top mesh and are available in 10 color options. Non-acoustical cubicle curtains are also available in the Clean-In-Place vinyl.
