

Four-Day Shipping Program

for CS Entrance Flooring Systems

- For a premium, your customers can have their orders shipped within four days.
The orders must comply with the following:

Procedure

The completed order must be received at Construction Specialties (CS) by 12:00 PM EST on a scheduled workday. A completed order consists of:

- Email to your customer service representative containing purchase order, model, color, frame, traffic direction, finish and size
- Phone call confirmation to your customer service representative
- Agreement signed by the customer confirming they will pay any expedited shipping charges
- No credit issues

After all appropriate paperwork is received, we will then process the order to ship on or before the subsequent fourth workday.

Premium

An extra 20% (or a minimum of \$150.00) will be charged for this four-day service. In the unlikely event that CS does not meet the ship date, there will be no premium charged and we will pay the expedited shipping costs.

Products

The products from which to choose are:

- Pedimat M1 or M2 in mill finish*
- TreadLine T1 with black rails
- PediTred G4 in mill finish
- Level base or tapered angle frame only

**Due to vertigo effects, M1 and M2 are no longer compatible with Wrought Iron or Graphite inserts.*
