

## RFA Series

Model RFA

This all-metal, surface-mounted cover stands up well to rolling loads, distortion and wear. The serrated plate provides slip resistance in interior or exterior applications where minimal movement is expected. The unique interlocking design allows for horizontal movement in the floor slab, as well as some vertical deflection.

### Advantages

- Can accommodate offsets in floor elevation
- Great for new or retrofit applications
- Low maintenance
- Slip resistant
- Resistant to rolling loads, distortion, and wear
