

# FB-24

**PRODUCT DESCRIPTION:**

FB-24 fire barrier is a block type barrier designed for 6" (maximum open) wall expansion joints. FB-24 provides a 2-hour wall fire endurance rating, minimizing smoke passage and accommodates dynamic movement without degradation of the material. The barriers have been tested and are third-party listed to meet current building codes and testing criteria.

**BASIC USES**

For 6" (maximum open) vertical wall rated expansion joints for buildings and parking decks.

**TECHNICAL DATA**

PERFORMANCE STANDARDS: UL-2079, ASTM E1399  
CODE COMPLIANCE: IBC

**PRECAUTIONS**

Refer to Material Safety Data Sheet for detailed health and safety information prior to use.

**WARRANTY**

CS warrants that its products are manufactured free of defects and conform to the technical data listed. Under this warranty, we will replace (at no charge) any material proven defective when applied in accordance with our written instructions for applications recommended by us as suitable for subject products. CS shall not be liable for any injury, loss or damage, direct or consequential, arising out of the use of the product.
