

HUSH Curtain® for Windows

HUSH Curtain® for Windows provides privacy by incorporating proprietary acoustical panels that help absorb and block sound. With multiple fabric and header options, these blackout curtains meet both functional and aesthetic requirements.

Advantages

- Available in drapery weight fabric to meet specific design needs
- Designed with pockets to hold acoustical baffles that provide noise absorption
- Tests reflect 70% improvement in reverberation time
- Noise reduction can improve guest comfort during length of stay
- Utilizes common drapery track

Applications

- Guest rooms
- Conference rooms
- Community rooms and shared spaces

Building Segments

- Hospitality
- Senior living
