

ASM-X Series

Model ASM-X

This surface-mounted metal facade cover system is designed for exterior applications where low-maintenance or tamper resistance is desired. The cover plate spans the joint and slides over the surface to allow movement when required. This cover system can be painted to match nearly any surrounding finish.

Advantages

- Low maintenance
- No exposed fasteners
- Installs in a variety of wall construction
- Paint to match surrounding finishes
- Vapour barrier included
- Fire Barrier optional
