

## BRJ Series

Model BRJ

This flexible roof cover is designed for flat, built-up or sloped applications. The malleable membrane of the cover provides multi-directional movement. Optional vapor barrier and factory fabricated transitions provide watertight results. Flat, curb form and wide curb form flanges are available for various applications.

### Advantages

- Applicable on flat, built-up or sloped roofs
- Multi-directional movement
- Factory fabricated transitions available to ensure a watertight seal
- Multiple seal and flange configurations available
- Vapor barrier optional
