

**CS**™ Acrovyn® Headwalls

*Design with the patient in mind...from head to toe.*

Las Colinas Medical Center  
Irving, TX

Hanover Hospital  
Hanover, PA

## Appealing environments can promote well-being.

- ▶ Headwalls receive extra scrutiny from visitors and staff since they frame the patient and bed.
- ▶ People perceive the condition of a building's interior as a reflection of patient care quality.
- ▶ Calm, comforting spaces are created using appropriate colors and textures for the environment.
- ▶ Modernized interiors can raise staff morale resulting in improved work performance.

Simple, attractive headwalls can be designed with Acrovyn® wall guards, wall panels and rigid sheet in a variety of materials, colors and patterns. Spice up the walls with Acrovyn® by Design, ideal for infusing fun and creativity into a room. This evolutionary product can incorporate photography, patterns, illustrations and more into an interior design. *(See top left photo.)*
