

Sure Snap® System Attachment

Sure Snap is a demountable, easy-to-install, interlocking attachment system for Acrovyn® Wall Panels.

Advantages

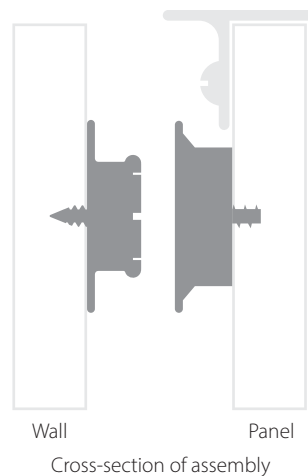

- Easily connect panels to any wall surface
- Strong connections secure heavier panels
- Quick installation with self-aligning mounting tool
- Coordinates with French Cleat installation method
- Easier application to butt-joint panels
- Designed for panels needing occasional removal while having strong pull-out load
- Minimal clearance needed due to straight-in and straight-out interlocking mechanism
- Fast and simple installation

Product Details

- Wall standoff of 13/16" (20.6mm)
- Connect and disconnect 100 times without failure
- 447 lb shear-load capacity
- 73 lb pull off threshold
- 107 ft.-lb ram impact capacity

Connection Details

- Female connector attaches to panel
- Locator pin inserts into female connector to mark wall
- Male connector is attached to wall, and additional blocking will be needed for panel depths over 13/16" (20.6mm)
