

Aluminum Trim

Aluminum trims are an optional trim offering available that provide an elevated design for joints/transitions. Available in multiple colors and profiles, these trim options easily connect various Acrovyn® wall covering products together with visual elegance.

Advantages

- Minimal mitering required in the field
- Radius and flat models can be interchangeable
- Multiple styles and colorways offer more design flexibility
- Available in radius and flat profiles and in multiple anodized colorways, offering more design flexibility
- Vertical, wainscot, inside corner & outside corner

Applications

- Hallways & corridors
- Headwalls
- Feature walls
- Accent walls
- Reception areas

Building Segments

- Aviation & Transportation
- Education
- Healthcare
- Hospitality
- Office & Mixed Use
- Retail
- Senior Living
- Sports & Entertainment
