

Image Requirements

Please use this checklist as you prepare to send your files to Construction Specialties (CS) for printing. We suggest thoroughly researching the origin and copyright status of any image that you intend to use prior to placing your order with us. CS requires a signed Acrovyn by Design® Copyright Agreement in order to avoid any unnecessary delays and potential copyright infringement claims.

Acceptable Files

- Vector artwork: EPS, AI, PDF (editable)
- Raster artwork: PSD, TIF, PSB, JPEG (high res)
- Supply original un-flattened artwork files.
- Include the most current version of all placed files.
- Ensure the resolution of images are at least 150 ppi at 100% of final size (300 ppi is preferred).
- Link or place support files in the document. Place any linked files in a folder marked LINKS.

Fonts

- Convert fonts in any linked/placed artwork to outlines.

Colors

- Clearly define Pantone color matches. Ensure that enabled spot colors appear in the color palette.
- Provide physical custom color swatches and the name of the paint manufacturer within the job file.
- For all jobs, regardless of color, ensure that all colors used in linked/placed files follow the same color naming as those in the layout.

Artboard

- Delete all unwanted items from the artboard and outside the margins.

Advanced

- Ensure that blend modes, transparencies, shadowing effects, etc. are flattened prior to submission.

File Collection

- Include a low-resolution PDF of the file for proofing purposes.
- Include relevant elevation/mural dimensions of the area.

To share your file(s) with us please contact your local representative to receive both your personalized file upload link and Acrovyn by Design® Copyright Agreement.
