

Project: San Antonio Military Medical Center
Fort Sam Houston, TX

Architect: RTKL Associates Inc.
Dallas, TX

Products: C/S 100-3 Sunshades 14" Airfoil Blades Canopy

San Antonio Military Medical Center (SAMMC) is located on Fort Sam Houston in San Antonio, TX. The largest inpatient medical facility (738,000 ft²) in the Department of Defense provides patient care, graduate medical education and research, as well as taking care of wounded service members.

The certified Level 1 Trauma Center has 425 beds and sees more than 68,000 emergency room visits a year. In addition, 40 beds are dedicated to the Army Institute of Surgical Research, which operates the only Department of Defense Burn Center. Since the Global War on Terrorism began in September 2001, the Burn Team has made frequent trips to Landstuhl Army Regional Medical Center in Germany, to transport burn patients to SAMMC for treatment. The hospital sustains over 89 accredited educational programs to include 38 graduate medical education programs, six nursing

programs with two nursing accredited programs, Emergency Medical Technician Basic certification programs, 25 allied health education programs, 18 enlisted allied health and Practical Nurse Course medic phase II training programs along with additional programs in administration and allied health specialties.

Information for this case study came from Army.mil

At a Glance
