

Stainless Steel Foil / Model SSF

PRODUCT DESCRIPTION:

The CS model SSF, Type 304, is a 2 mil thick stainless steel foil.

BASIC USES:

SSF is a stainless steel foil used over fire barrier systems to maintain compliance with UL listings. It is typically used in concealed areas where applying expansion joint covers over the fire barrier are not feasible.

TECHNICAL DATA:

- Material: Stainless Steel

PRECAUTIONS:

Refer to Material Safety Data Sheet for detailed health and safety information prior to use.

WARRANTY:

CS warrants that its products are manufactured free of defects and conform to the technical data listed. Under this warranty, we will replace (at no charge) any material proven defective when applied in accordance with our written instructions for applications recommended by us as suitable for subject products. CS shall not be liable for any injury, loss or damage, direct or consequential, arising out of the use of the product.
